

THE COLLEGE OF  
**OSTEOPATHS**  
ESTABLISHED 1948

July 2022

## Respiratory Infection

- If you have symptoms of a respiratory tract infection stay at home and look after yourself until you are better
- If you are due into clinic or at a teaching weekend, please let us know via the usual channels that you will not be attending
- If you suspect that you have COVID, you should try and take 2 lateral flow tests, 24 hours apart that give negative results, before you return. Please email [COVID-19Reporting@collegeofosteopaths.ac.uk](mailto:COVID-19Reporting@collegeofosteopaths.ac.uk) to advise us
- If you cannot access LFT, please stay away for 7 days. If you are still feeling unwell on day 7 and have a temperature, remain at home for at least a further 3 days. Please do not return until you are well

## Other Infections

- If you suspect you have an infectious condition that may impact others, please do not attend Clinic or a teaching weekend until you are better. Please take the usual precautions specific for that condition.

**Following the above will allow us to bring our clinics safely back to maximum capacity and ensure that we have the staff and students to resource our teaching and clinical spaces.**

13 Furzehill Road, Borehamwood, Hertfordshire. WD6 2DG
